

15 november 2018 - Training session on data management

Data management in clinical research - Training session - 15/11/2018 Paris

This pilot training course, designed for clinical research professionals who are not data management experts, will raise awareness on the new challenges raised by the digital revolution in clinical research. Presentations and discussions will cover a broad spectrum of issues related to data management, sharing, reuse, and analysis.

In partnership with:

- [Corbel*](#) [1] | Shared services for life-sciences |
- [ECRIN](#) [2] | European Clinical Research Infrastructure Network |
- [F-CRIN](#) [3] | French Clinical Research Infrastructure Network |

Key points

- New data challenges in clinical research
- Clinical trial data management and data center certification
- Clinical trial data sharing
- Multimodal data management
